Footbridge condition report 2026

Fictional test document for LinkPeek. Nothing here is real.

Section 1

Millbrook council reviewed the condition of its footbridges over the summer and found that four of the eleven need repairs within two years. The worst, at Long Fen, has corroded handrails and will close for six weeks in the spring while a new deck is fitted. Millbrook council reviewed the condition of its footbridges over the summer and found that four of the eleven need repairs within two years.
